About this Qualification

In the GA Level 3 Diploma in African Wildlife Management, learners will explore the history of the impact humans have had on wildlife in Africa and how land use has changed. Learners will gain knowledge of the ecological principles and functions of African wildlife management, and the methods and techniques available to maintain African wildlife populations. Learners will also develop an understanding of the monitoring of protected areas and the wildlife it contains and how such monitoring activities inform decision-making in management interventions. In addition, learners will understand the history of human-wildlife conflict in Africa and the historical and modern challenges posed by illegal trade and the exploitation of animals. A Case Study of an African conservation success story is also required.

Entry Requirements

This qualification is ideal for learners who work in, or intend to enter, a career in African wildlife care and/or conservation. This qualification is intended for learners aged 16 and above. There are other no formal entry requirements for this qualification.

Progression Opportunities

This qualification is an ideal qualification from which a learner might progress onto higher level study, practical occupational training, a volunteering position or a career in African wildlife management or conservation.
