

## Practical Guide to Remotely Conducting Online Examinations

### Glossary

**Online exams** – this term is used to refer to exams which are accessed by candidates on screen. Online exams can take place either at centre premises and be invigilated by centre staff in person, or they can be accessed by candidates from locations away from centre premises and be conducted and invigilated remotely.

**Remote Invigilation** – this term refers to a scenario where the invigilator is not based in the same physical location as the candidate (s) and is using Zoom software to conduct and invigilate the examination.

**Remote Delivery** - this term refers to a scenario where the interlocutor is not based in the same physical location as the candidate (s) and is using Zoom software to conduct the examination.

**Secure Exam Browser (SEB)** – software which turns each candidate's computer into a secure workstation for the duration of the examination. It must be installed by each candidate prior to the start of the examination session. It does not need to be installed by the delivery staff (invigilators).

NB Secure Exam Browser only needs to be used for **some** of the online examinations, please check with the GA if in doubt.

## Candidate Registrations

Candidate registrations for online examinations are made on the ARK in exactly the same way as for paper-based examinations.

Important: please make a note of the Candidate Reference Number generated by the ARK at the point of registration. You will need that number for the candidates to access the online assessments on the day of the exam.

## Booking an exam

### Online centre based

The candidates are taking the online assessment being physically present at the centre premises

### Online invigilated remotely

For online exams that are invigilated remotely (i.e. the candidates are taking them online without being physically present at the centre premises), select the 'remote / non centre based' location.

Please note that the online examinations must be booked in line with the timescales for the relevant qualification.

The exam materials will be available to download 1 working day ahead of the examination date.

You will download the following documents:

- A blank copy of the Examination Report Form (Word)\*

### **Preparation at least one day before the exam date**

You will need to email each candidate a copy of the *Instructions for Candidates* document and ask them to read it, complete it, sign and date it, and return it with a copy of their photographic ID document electronically to the centre at least one hour before the scheduled exam start.

Candidates are not required to print the form to complete and sign it – an electronic signature is acceptable. The form can be dated with any date prior to and inclusive of the date of the exam.

You will also need to email each candidate a copy of the *SEB Installation Guide* and *Technological Requirements for GA Online Examinations* documents at the same time. We recommend that all three documents are made available to the candidates as early as possible, to allow them maximum preparation time.

**Candidates whose completed documents or copies of ID have not been received will not be allowed to take the examination.**

**Candidates who did not install the SEB software will not be able to take the examination.**

### **Preparation on the day of the exam**

Test your equipment and Internet connection, including Zoom, prior to starting the exam.

Check that all candidates have returned completed *Candidate Instructions* and submitted copies of their ID documents, and that you have these available so that you can ensure that the candidates who participate in remotely invigilated assessments can have their identity verified against the IDs submitted at the point of registration.

Ensure that you apply the following settings to each session prior to sending out invitations.

## Schedule Meeting

**Topic**

**Start:**

**Duration:**

☐ Recurring meeting Time Zone: London

---

**Meeting ID**  
☒ Generate Automatically ☐ Personal Meeting ID 954-584-1134

**Password**  
☒ Require meeting password

**Video**  
 Host: ☒ On ☐ Off Participants: ☒ On ☐ Off

**Audio**  
☐ Telephone ☒ Computer Audio ☐ Telephone and Computer Audio

**Calendar**  
☒ Outlook ☐ Google Calendar ☐ Other Calendars

**Advanced Options**

Change the topic to the name of the exam.

Select the date, time, and duration.

Switch on the video for both the host (invigilator) and the participants (candidates).

Click on the Advanced Options

In advanced options, select the following settings:

**Advanced Options**

☒ Enable waiting room

☐ Enable join before host

☐ Mute participants on entry

☐ Only authenticated users can join: Sign in to Zoom

☐ Automatically record meeting

**Alternative hosts:**

Enable the Waiting room option.

Schedule the meeting.

Start a Zoom session and email all candidates an invitation to join the session at the scheduled exam start time.

The email invitation is generated by the system and will contain the following information.

**Cc:**

**Subject:** Please join Zoom meeting in progress

---

**Join Zoom Meeting**  
<https://us04web.zoom.us/j/567533144?pwd=RGNwQys1c0UvU2I1SzRFaTRlVjVLZz09>

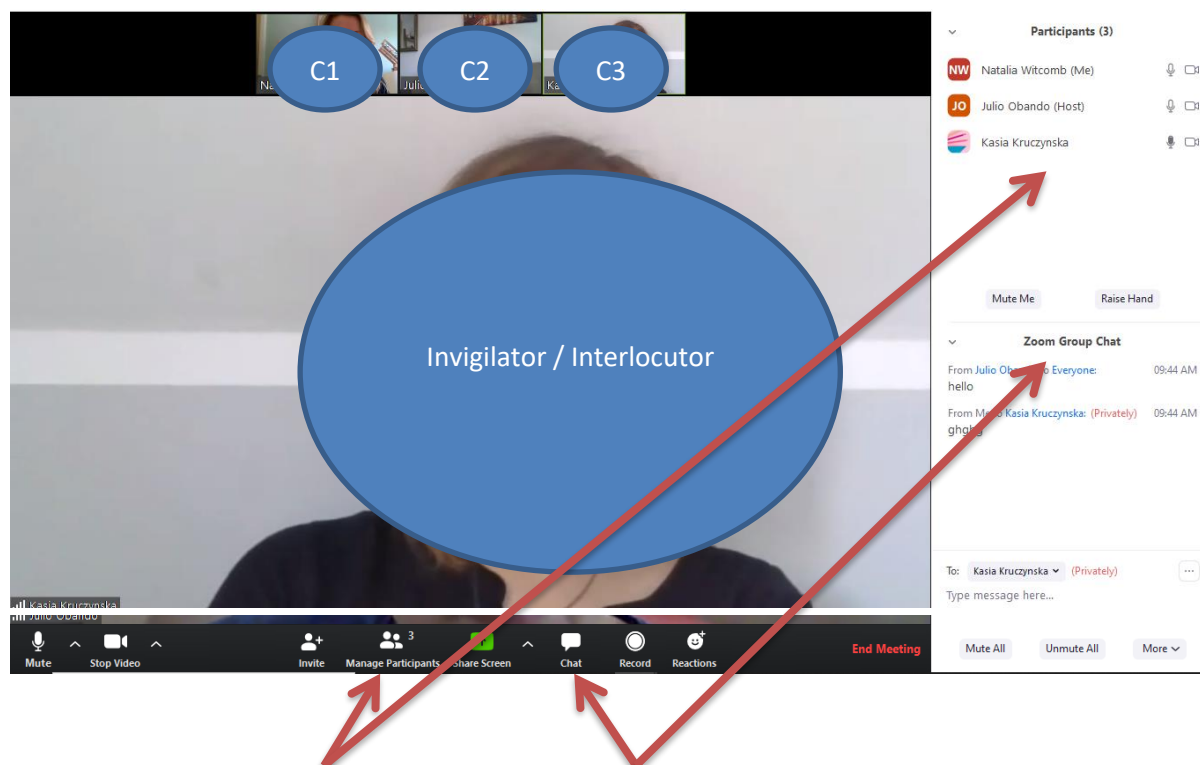

**Meeting ID:** 567 533 144  
**Password:** 926027

**NB** The username and password here are examples only. Do not attempt to use.

You should amend the content of the automatically generated invitation prior to sending, for example by using the wording from the example below. Please include a reminder that the candidates **MUST** download and install Safe Exam Browser prior to the exam and that they will need to run Zoom on a different device to the one they will run Safe Exam Browser on for the online exam.

### General Zoom settings during the exam session

#### 1) Select 'gallery view'

2) Have both the 'manage participants' and the 'chat' windows opened to the side of the screen.

3) Make sure that the 'chat' settings are set to 'everyone chat publicly'.

4) As the candidates join the session, they will be automatically admitted to the 'waiting room'. The Waiting Room feature allows the host to control when a participant joins the meeting. As the meeting host, you can admit attendees one by one or hold all attendees in the waiting room and admit them all at once.

Once the Zoom session has started, please conduct the audio checks and ensure that all candidates can hear you and can be heard by you. You should explain to the candidates what is going to happen during the exam session, and reiterate the main instructions for the exam.

**IMPORTANT:** Make sure that each candidate has been provided with a telephone number they can reach you (or another member of staff at the centre) on in case of any unexpected events during the exam session (loss of Internet connection etc.).

### Conducting ID checks

Once all the candidates have joined the Zoom session, ask them to introduce themselves and conduct the ID checks by checking their identity against the IDs. Please also check that the ID matches the one provided at registration stage.

### Additional Video Device Set-Up for the Online Examination

**NB Please note that the additional camera is only required for the online examinations taken using Safe Exam Browser (SEB).**

**1. Perfect positioning.**

**2. We can't see your face.**

**3. We can't fully see your work area.**

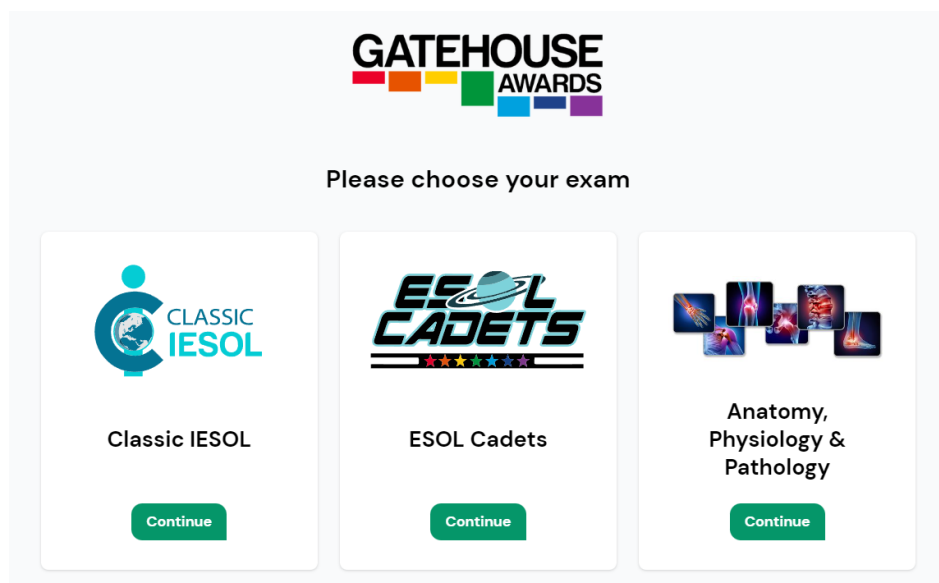

The candidates should place their second device with Zoom in the same way as Picture 1 to give the greatest view of their work area. The invigilator will need to see the candidates, their workspace and their keyboard. Set ups illustrated in images 2 and 3 are not appropriate. Please inform the candidates to adjust their camera if it is incorrectly positioned prior to starting the examination.

### Starting the online examinations

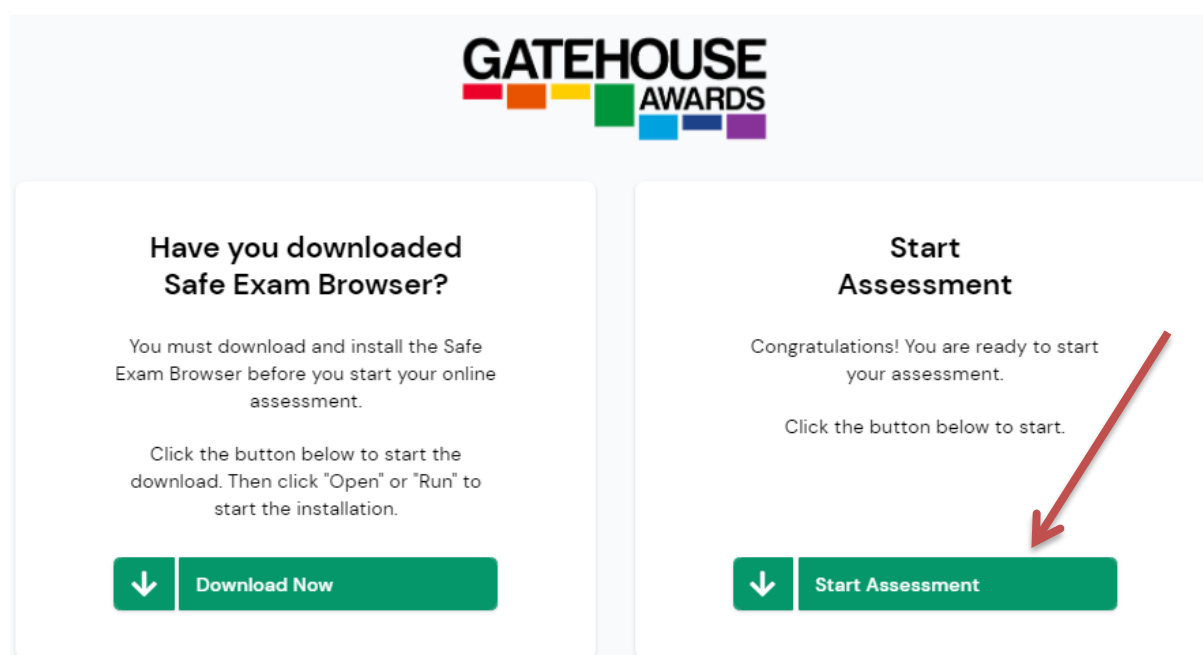

Instruct the candidates to go to the Gatehouse Awards website and click on the Online Exams button at the top of the screen.

Ask the candidates to select the exam they are registered for.

If so required, the Candidates should have already downloaded Safe Exam Browser and so will be able to click on Start Assessment.

At this point, the Safe Exam Browser (if applicable) will open and turn the candidates' computers into secure workstations.

The candidates will see the following screen. They need to enter their username and password to be able to access their online exams.

Each candidate is issued with a unique number at the point of registration that serves as their username and passwords. Be careful to give out the correct numbers to each Candidate and ask them to await your instructions before proceeding.

The login screen features the GATEHOUSE AWARDS logo at the top. Below it, there is a form with two input fields: 'Username or Email' and 'Password'. A 'Remember Me' checkbox is located below the password field. A blue 'Log In' button is positioned to the right of the password field.

The username AND the password are the same. It is the Candidate reference number generated by Ark at the point of registration.

You should make this number available to each Candidate via the email with the invitation to join the online session.

Alternatively, you can send it to them via text, WhatsApp message, or in a separate email.

Once the candidates are logged in, they will see the screen with the title and level of the examination they have been registered for.

They need to click on the examination name and level to proceed to the instructions page.

The instructions page displays the GATEHOUSE AWARDS logo at the top. Below the logo, the title 'Anatomy, Physiology and Pathology' is shown. Underneath, the 'INSTRUCTIONS FOR CANDIDATES:' section lists several rules. Below the instructions, the 'Time allowed: 60 minutes' and 'Total marks available: 60' are displayed. A blue instruction text asks candidates to complete their details before starting the exam. Below this, there are three input fields: 'Your Email Address:', 'Your Name:', and 'Date of Birth:'. At the bottom, there are two buttons: 'START EXAM NOW' (blue) and 'GO BACK' (grey).

The instructions page will include instructions about the assessment, as well as space for the candidates to input their details. These should appear exactly as they do in the ID document used to register for the exam.

Ask the candidates to read the Instructions and input their details, and then wait for your instruction before pressing the 'Start exam now' button.

At this stage, advise the candidates that this is their last opportunity to ask questions before the exam will start. From this point onwards, the candidates will only be able to contact the invigilator in emergency situations.

Once the candidate has clicked on the 'Start Exam Now', the timer will start running and will remain on the screen for the duration of the exam session . It is not possible to stop or pause the timer once the exam has been started, except for when a candidate loses Internet connection, in which case the timer will pause automatically for a maximum of 5 minutes per exam / unit. If the Internet connection is not resolved, the system will auto-submit the exam.

**TASK 1.** Your friend Carlos wants to do something special for his mother's birthday. Write an email to Carlos, and offer him some advice about how he can celebrate his mother's birthday. **Write a minimum of 100 words.**

You can use some of the following ideas, or write about your own:

HOW YOU CELEBRATED BIRTHDAYS BEFORE	WHO TO INVITE	WHAT GIFT TO BUY
COOK A MEAL	SURPRISE PARTY	GO TO A NICE RESTAURANT

**THE TIMER**

NEXT PAGE

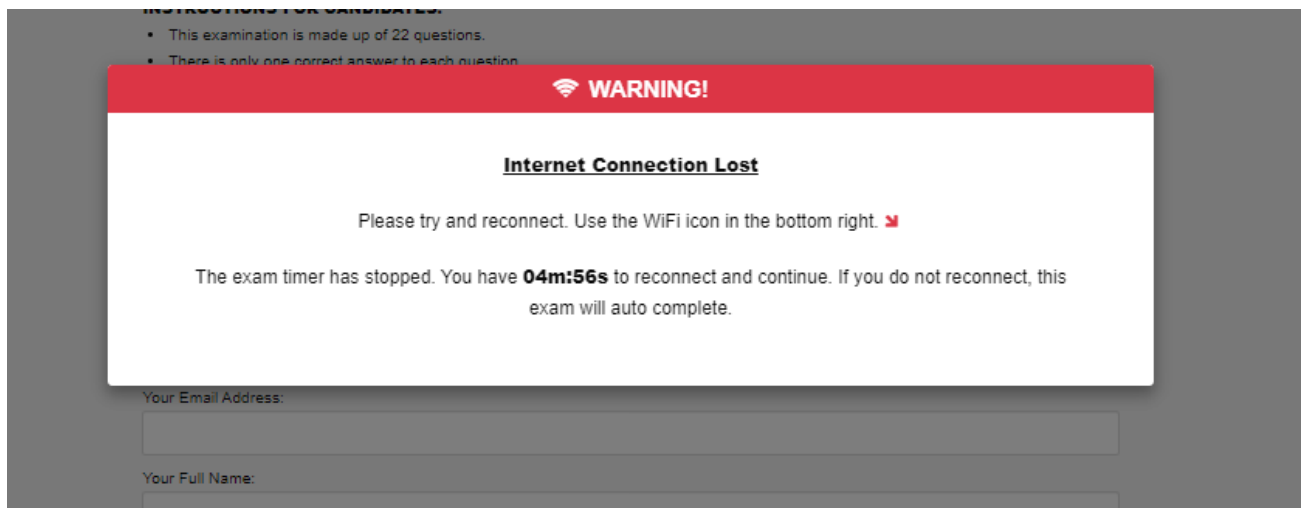

Time left: 44 minutes and 55 seconds

EXIT SAFE EXAM

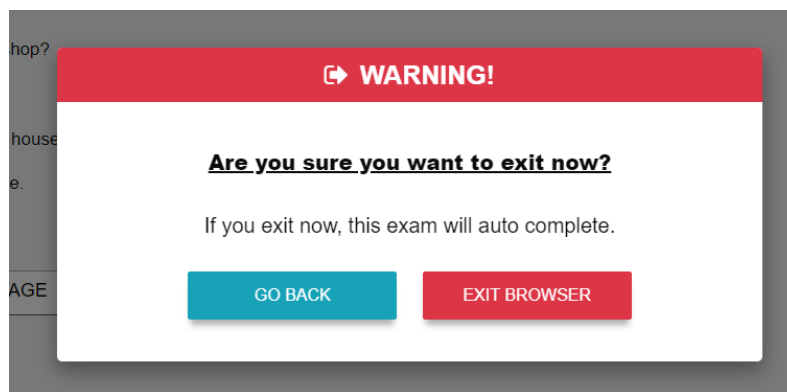

Candidates can move between the exam tasks using the 'next page' and 'previous page' buttons at the bottom of the exam window.

The candidate responses are saved automatically.

If the candidate loses their internet connection, a warning message will come up. They will be allowed up to 5 minutes to reconnect. The warning message on the screen includes a timer, which tells the candidate how long they have to reconnect. If they cannot reconnect within 5 minutes, they will not be allowed to complete the unit exam and they will be required to submit what they had produced up to that point as soon as they have reconnected.

If the candidate tries to leave the Safe Exam Browser at any point during the examination, they will first see a warning message:

If they proceed to leave the Safe Exam Browser, their progress will be saved and submitted. They will not be able to get back into the exam to continue working or make any changes.

The last page contains a declaration which must be completed prior to the assessment being submitted:

**CANDIDATE DECLARATION:** By entering my details on this page, I confirm that the work contained in this booklet is my own and I had no prior knowledge of the content of this examination. I also declare that I will not share with any person any information about the questions and/or tasks.

Candidate First Name(s):

Candidate Surname:

You can find further guidance on using ZOOM here: <https://www.youtube.com/watch?v=-2pq4l1urXA>.

## Emergencies / Special Considerations

If you or one of the candidates experiences any unexpected issues with Internet connection / power supply etc., please contact GA immediately and we will be able to advise how to best proceed with the remaining online exam (s).

Please note that interlocutors and invigilators should also be familiar with the *Regulations for Remotely Conducting Controlled Online Examinations*, as well as the *GA Online Exams Frequently Asked Questions* documents.

## At the end of the online examination session

After the session has finished, centres must upload the following documents to GA via the ARK:

- Examination Report Form
- Signed Candidate Instructions document

These must be uploaded using the 'Exam Upload' function in the Ark.

To navigate to the Exam Upload page, log in using the centre's usual log-in credentials, navigate to the relevant exam session, click on it and select 'Click here to upload files'.

### Exam Session 170123-5301

17-01-2023 (10:00 AM)

GA Level 3 Certificate in Anatomy, Physiology and Pathology

CONFIRMATIONS OF ENTRY PDF

EXAMINATION REPORT WORD

SESSION PENDING.

NAME	APP	RESULT
Sample Candidate (01-01-2000)		Pending

You have until **18-01-2023** to return/upload all completed examination materials to us.

CLICK HERE TO UPLOAD FILES

This screen will appear. You can drag and drop individual documents OR zipped files.

UPLOAD

Drop files  
(or click)

Please confirm that any **unused** hard copies of the assessment materials have been securely disposed of, and electronic versions deleted from your device. Completed candidate assessment papers and audio / video recordings need to be securely stored for a period of 2 years. ☐
